

EQUITY INDICATORS DASHBOARD

2016-2022

January 2023

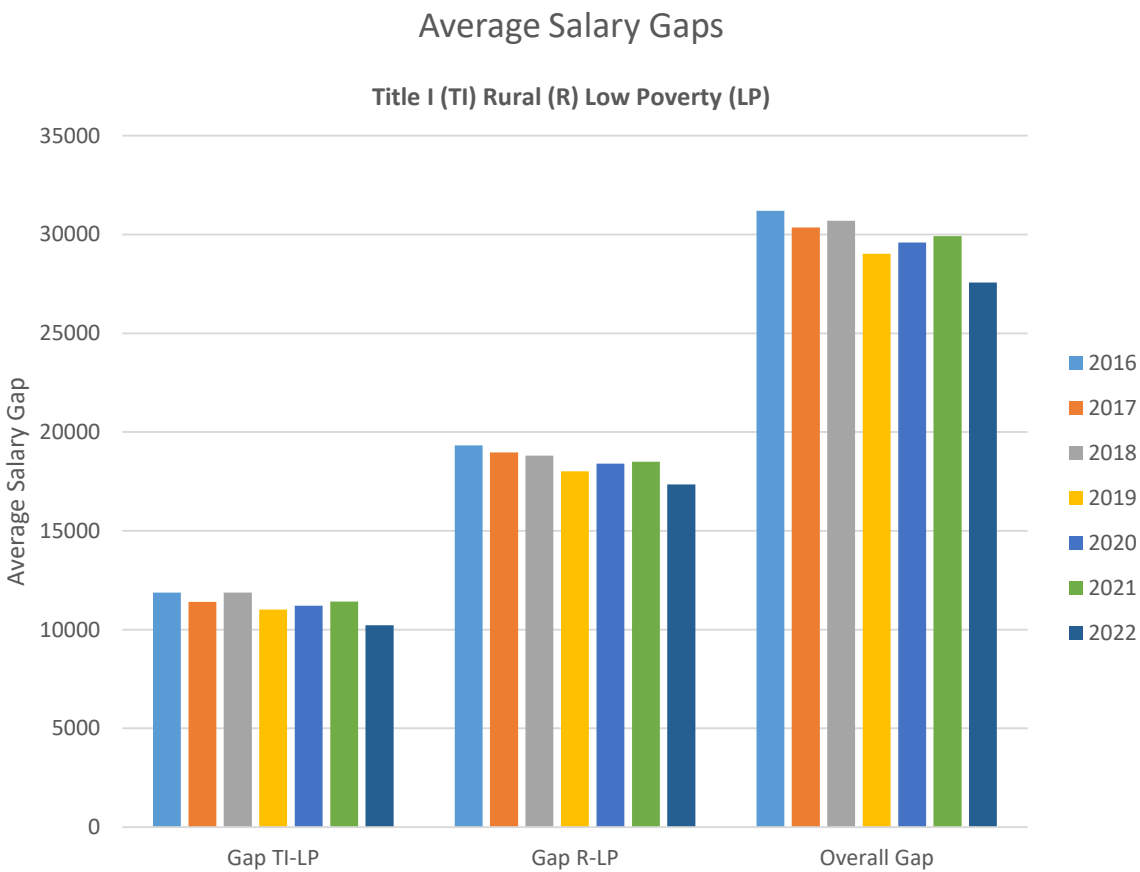

Missouri Department
of Elementary and Secondary Education

- According to the Equity Measures Chart <https://dese.mo.gov/educator-quality/equitable-access-excellent-education>, these data suggest that the learning experience of students in high-poverty(HP), high-minority(HM) and rural(R) schools compared to students in low-poverty schools(LP) is quite different. High-poverty, high-minority and rural students appear to learn from less-experienced, unqualified, out-of-field, or less-effective teachers at higher rates than occur in low-poverty schools.
- The following charts will demonstrate the gaps in various important areas of schooling.

Average Salaries

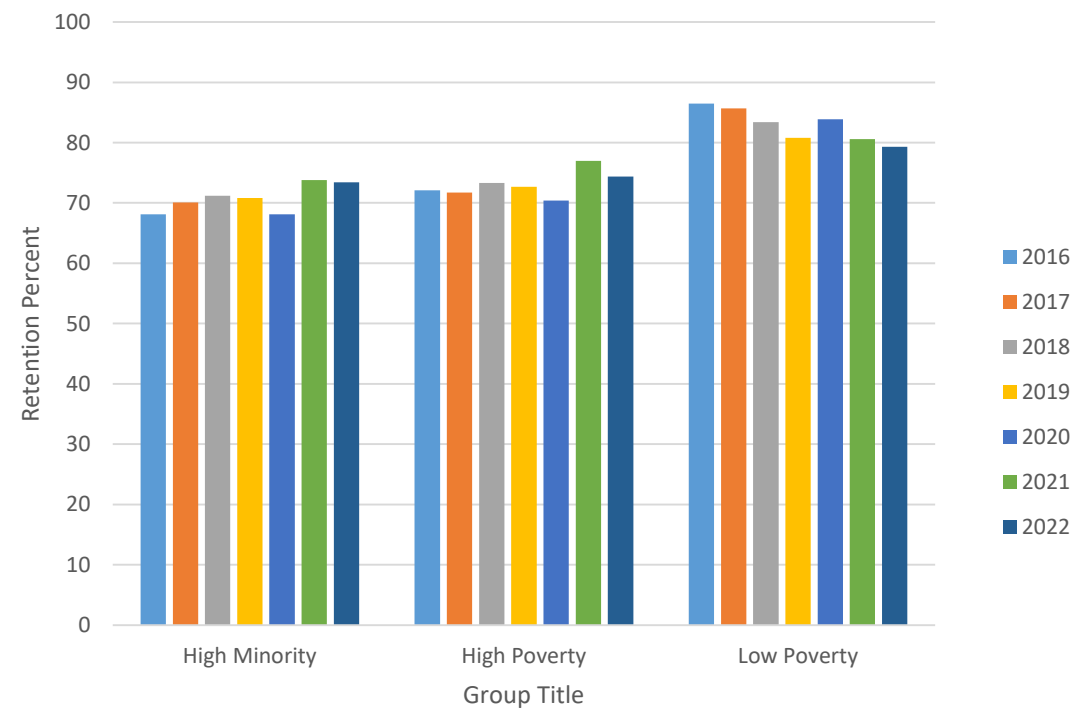

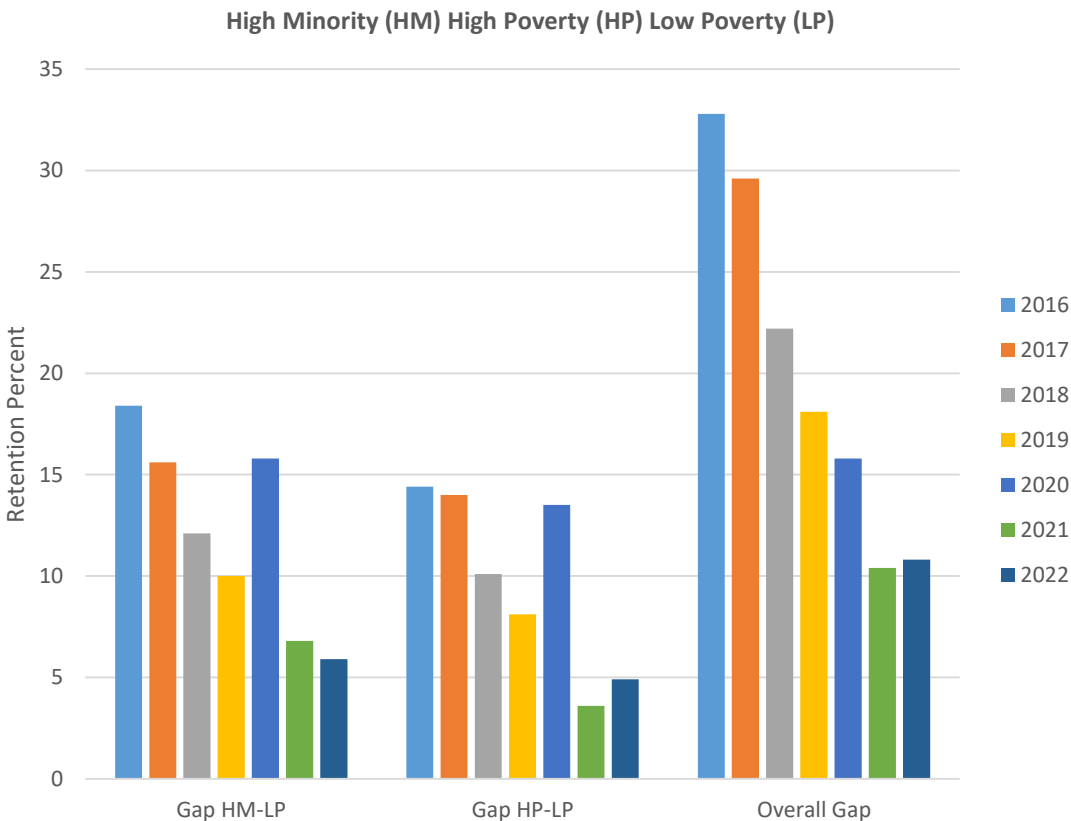

One Year Retention Rate

same school from one year to the next

One Year Retention Rate

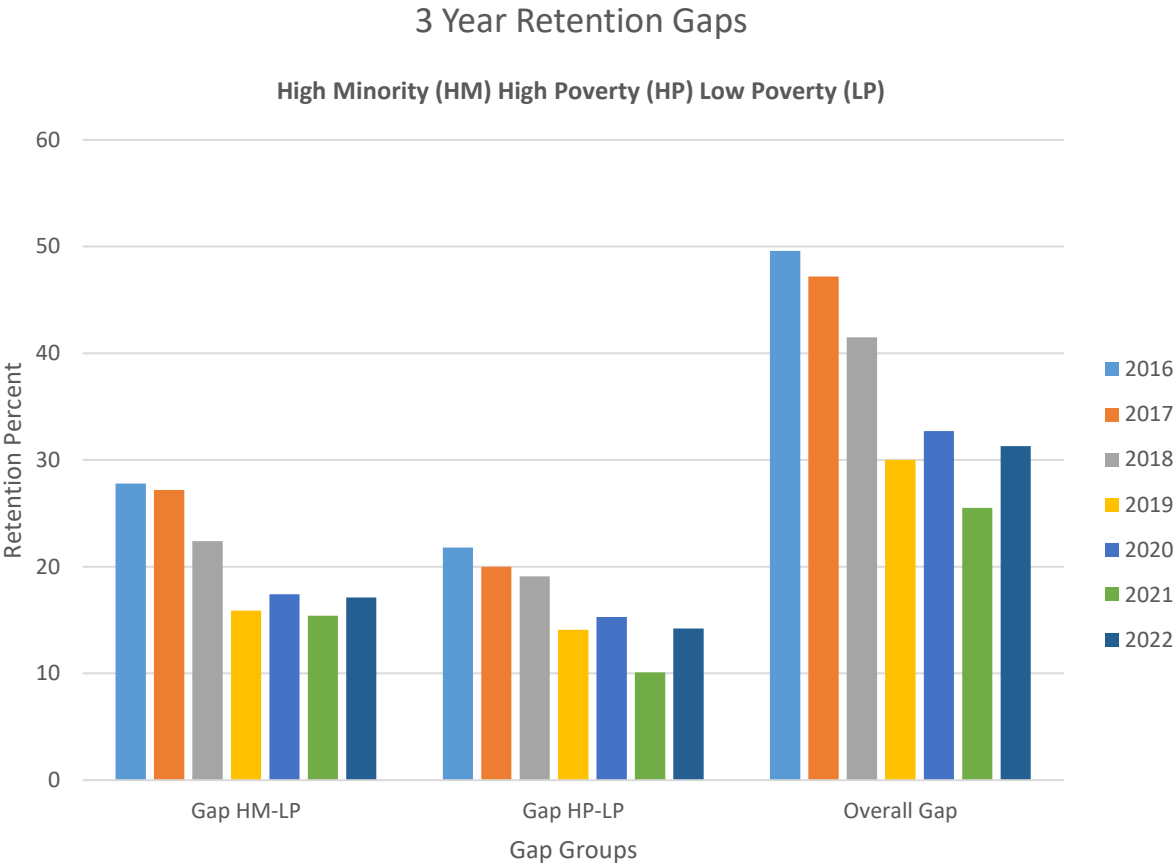

One Year Retention Rate Gaps

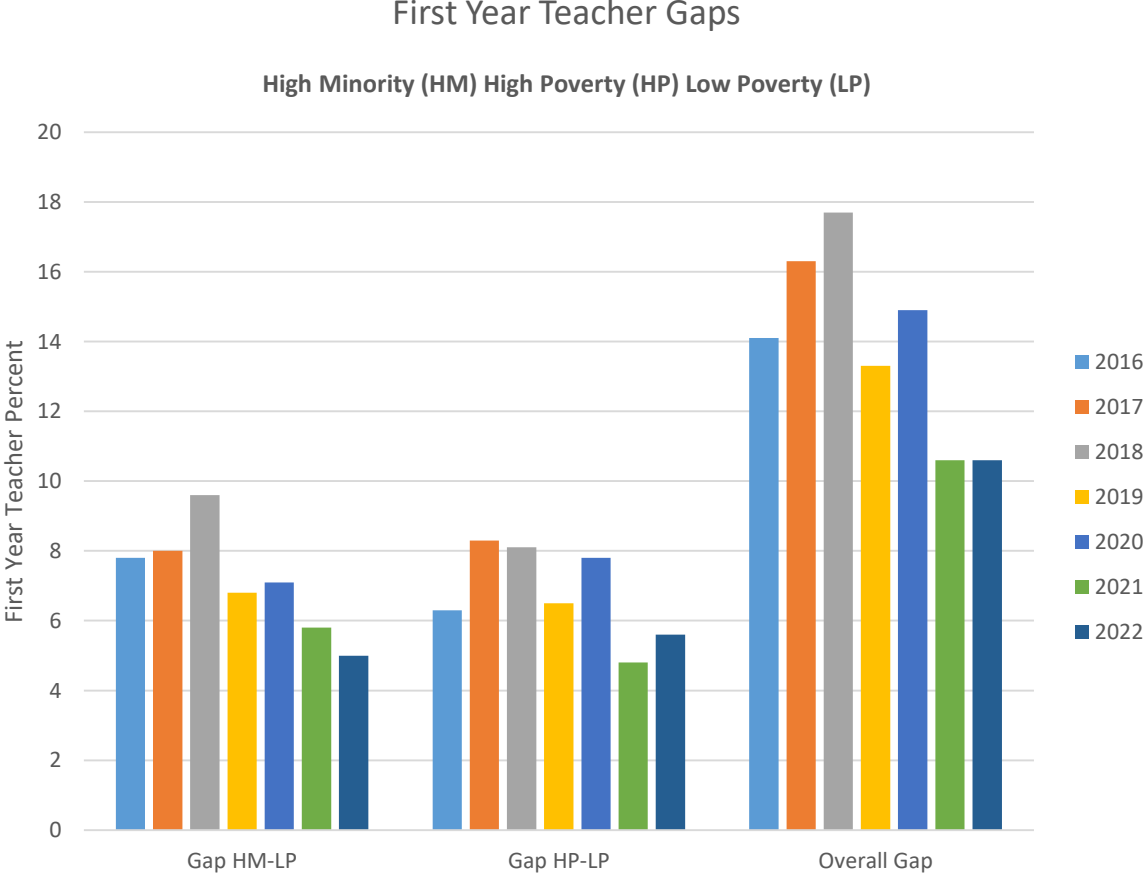

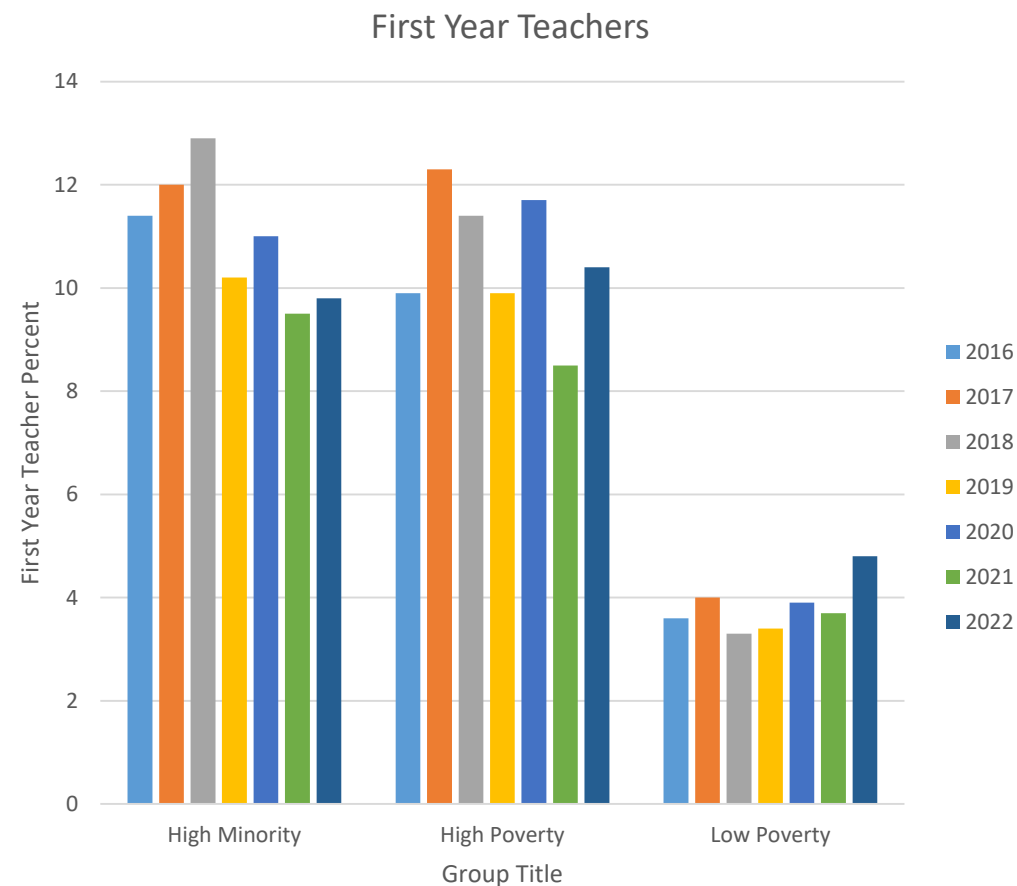

Three Year Retention Rate

same school for three consecutive years

First Year Teachers

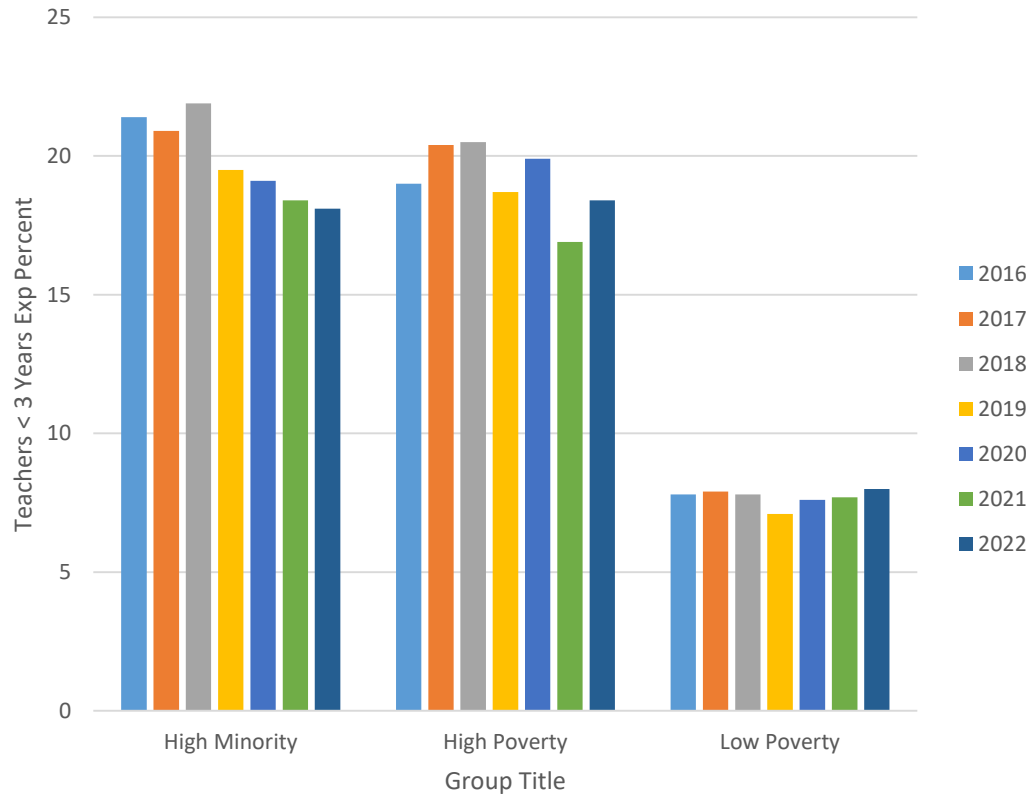

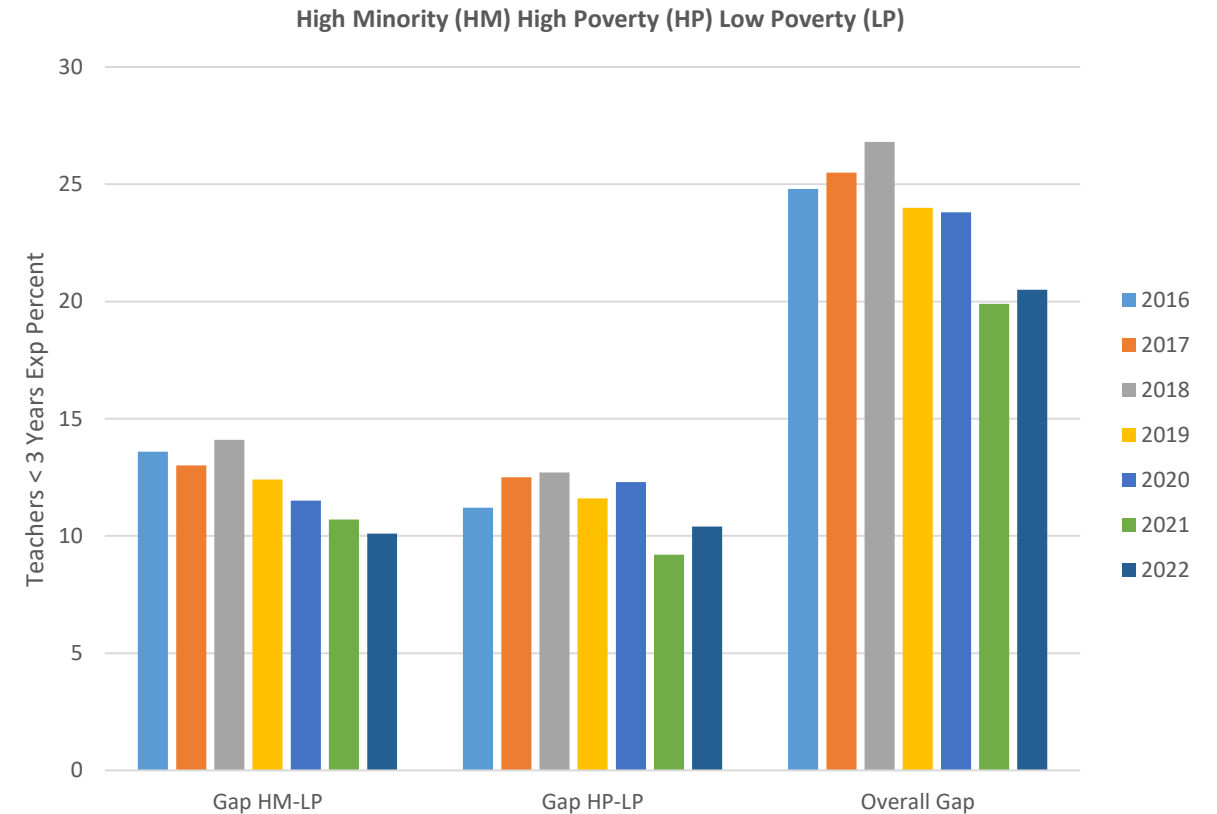

Less than 3 Years Experience

three years in any school

Teachers Less than 3 Years Experience

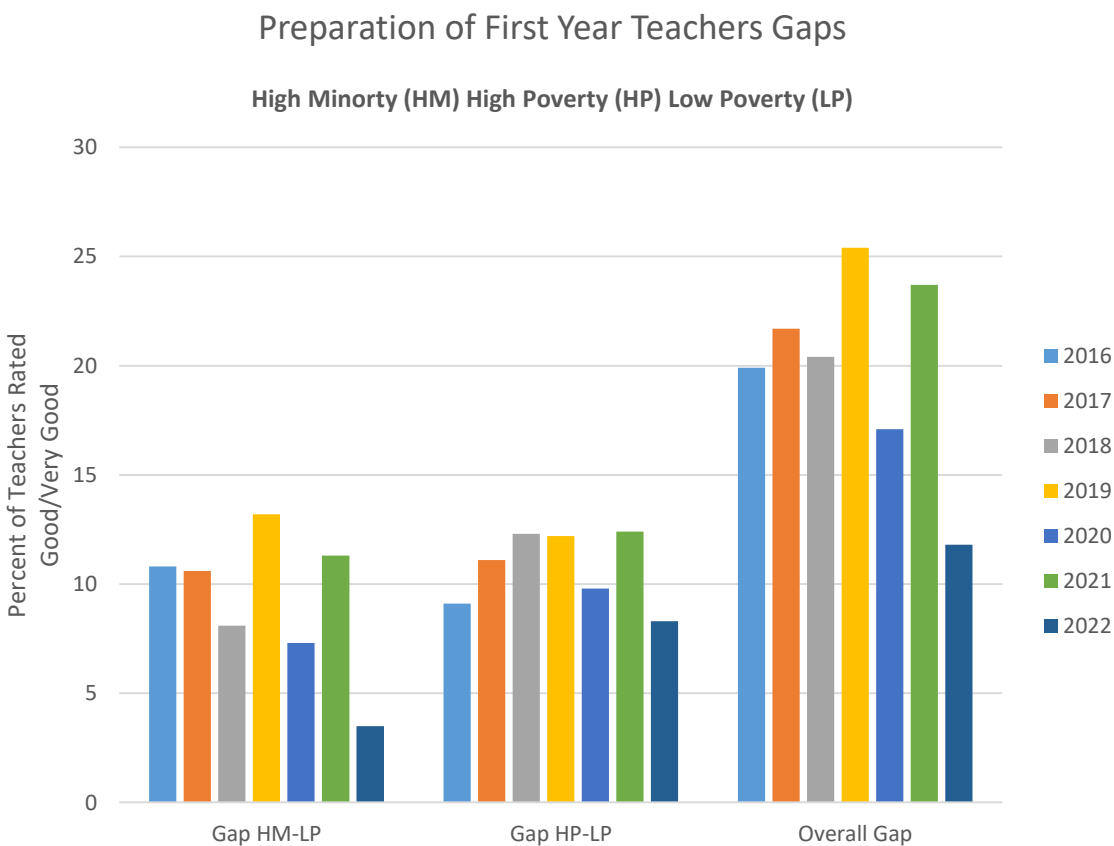

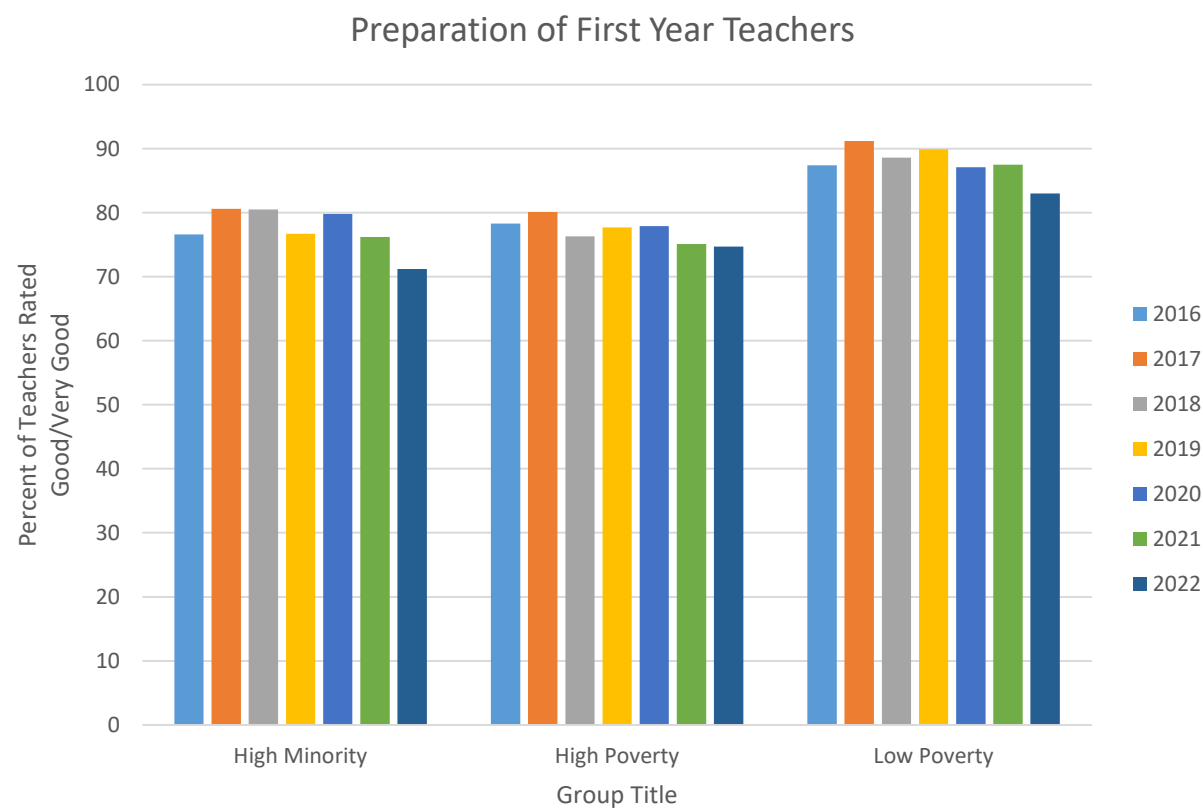

Teachers Less than 3 Years Experience Gaps

Preparation of First Year Teachers

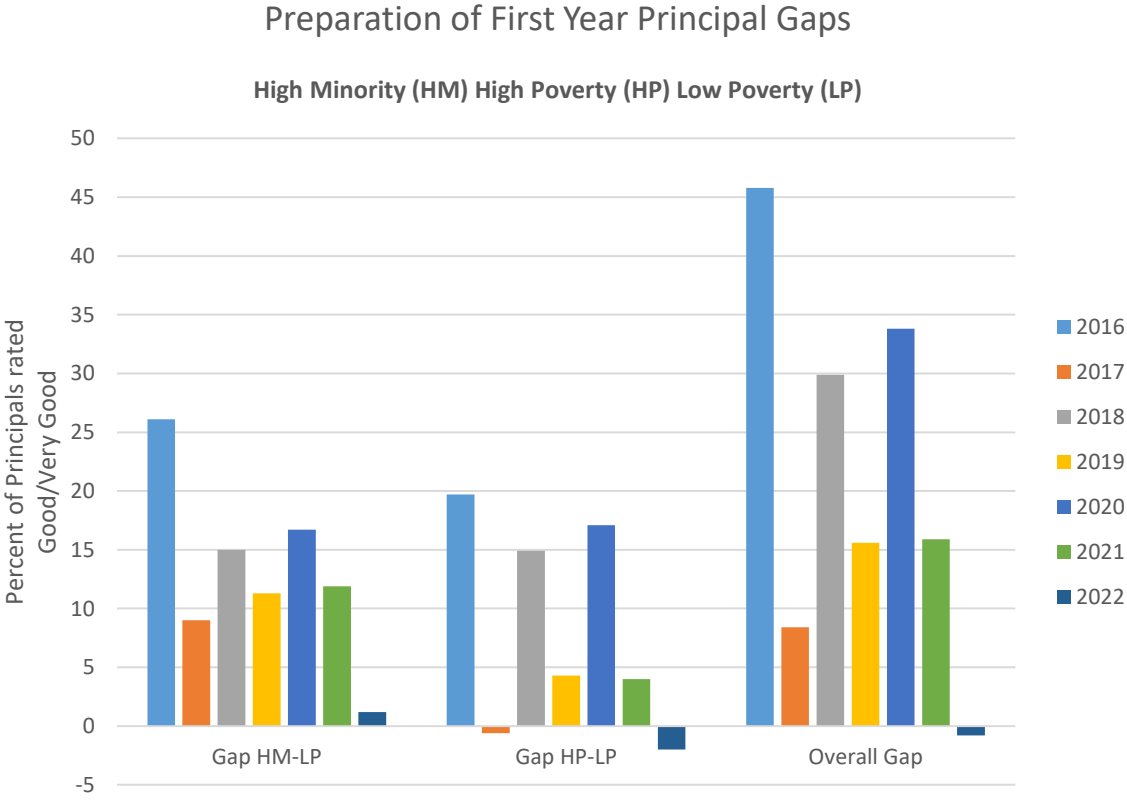

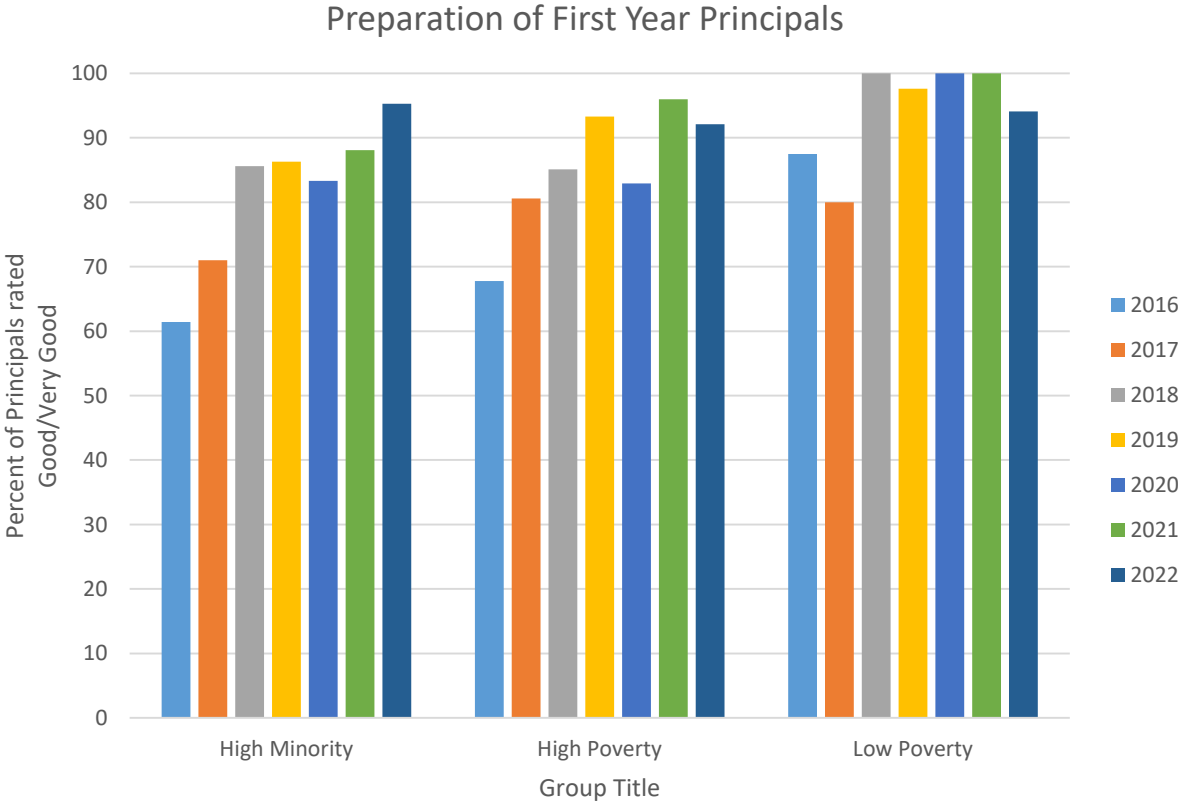

rated the quality of their preparation as good or very good

Preparation of First Year Principals

rated the quality of their preparation as good or very good

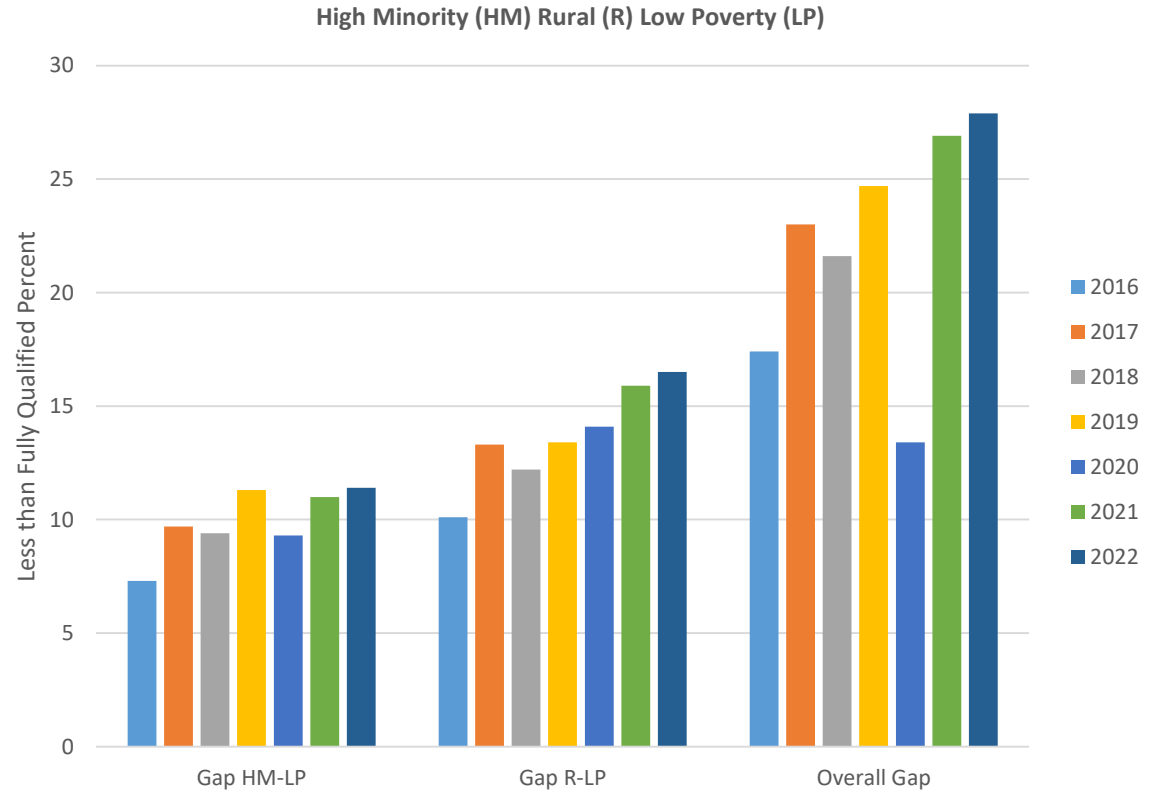

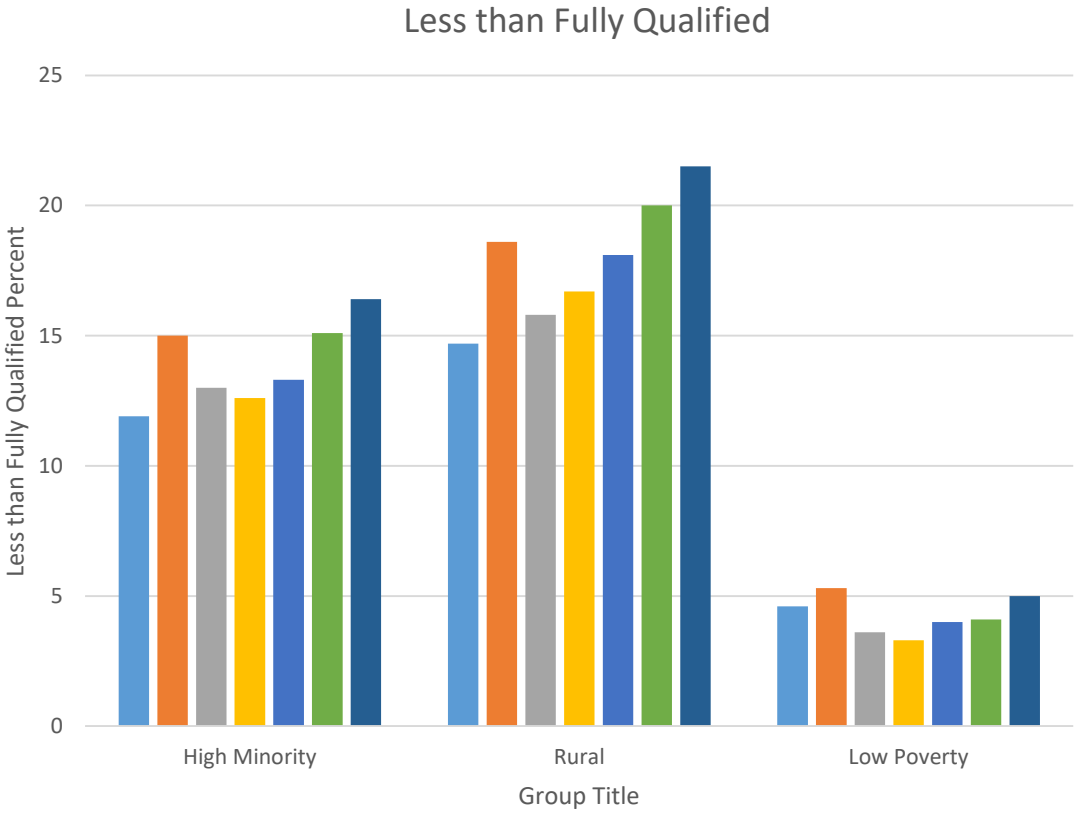

Less-than-Fully Qualified

provisional certificate OR temporary certificate OR inappropriately certified

Less than Fully Qualified Gaps

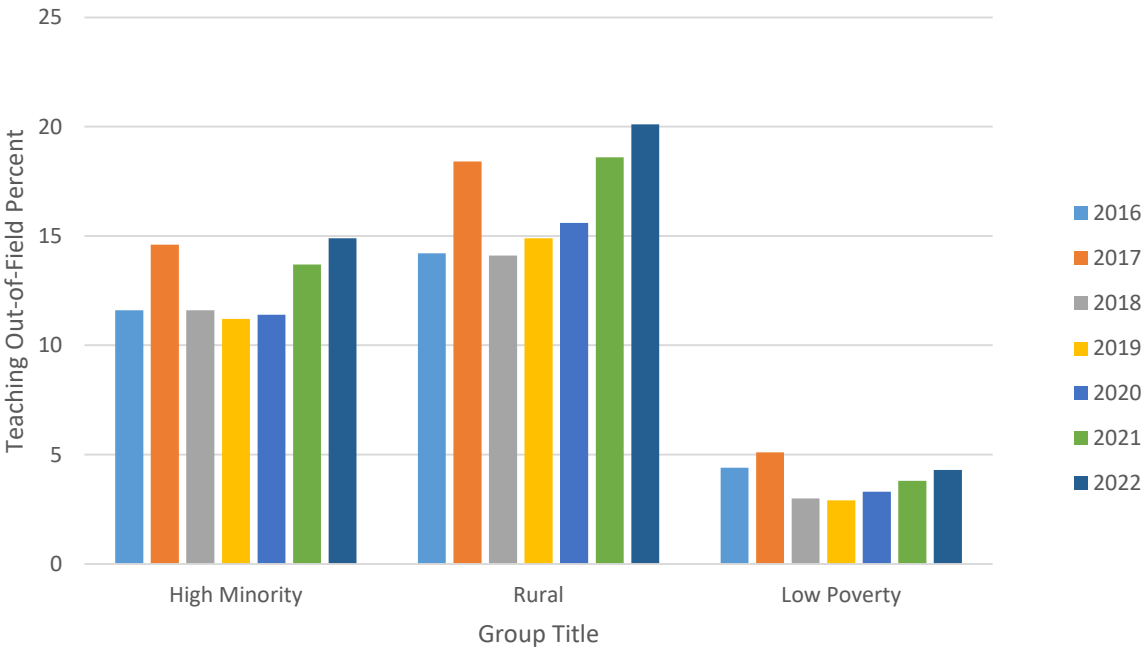

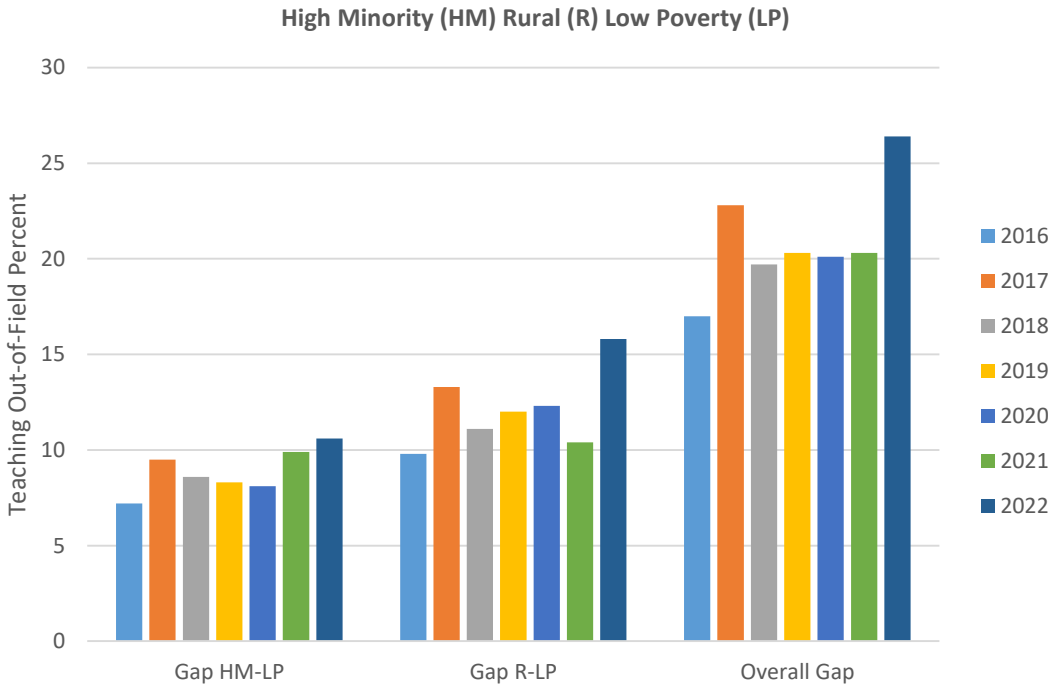

Teaching Out-of-Field

teaching at least one class in a content area for which you are not certified

Teaching Out-of-Field

Teaching Out-of-Field Gaps

Teacher Effectiveness Index

relative level of effectiveness based on a teacher's performance rating
